INCEPTION

Founded in 2012, with a proud heritage based in Jamnagar and corporate office in Ahmedabad, Gujarat.

SUSTAINABILITY

Go above and beyond with our meticulously designed renewable energy solutions, perfectly aligned for your sustainability goals.

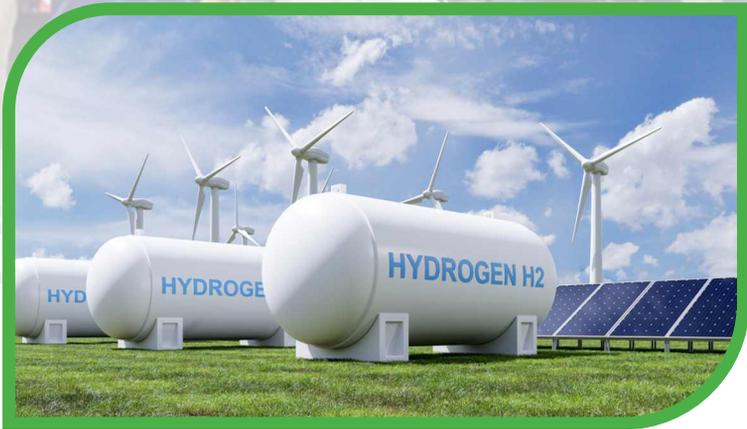

GROWTH & IMPACT

From being the beacon of wind energy to dominating large-scale PV Solar projects, our journey is a testament to our dedication. Successfully executing a staggering 1.4 GW of projects across India, we continue to break barriers with over a GW Plus Projects earmarked for development.

CUSTOMER-CENTRIC APPROACH

We provide tailor-made energy solutions, navigating our clients through energy demands, reducing costs, achieving power autonomy, and lowering carbon footprints.

MANAGEMENT TEAM

AMIT KAMBARIYA
MANAGING DIRECTOR & CEO

Amit is the founder of Opera Energy and a visionary with sound business acumen. Under his able and dynamic guidance and stewardship the company has grown manifold. He is a renowned and distinguished leader in the renewable energy sector. With a rich experience of more than a decade, he has pioneered innovative strategies to propel the company to new heights. His approach intertwines operational excellence with groundbreaking innovations. His leadership is defined by a relentless pursuit of excellence and a commitment to sustainability. Amit's diverse expertise and visionary approach makes him a transformative figure in the industry.

MANIMARAN KRISHNAN
HEAD – BD & OPERATIONS

Manimaran, with a rich experience of fifteen years in renewable energy sector, specializes in Business Development, Strategic Planning, Asset Management, and Contract Negotiation. His MBA in Project Management enriches his extensive, multifaceted experience. He has played crucial roles in leading energy companies, shaping impactful strategies. His expertise is pivotal for steering the company through complex business terrains. He is sphere heading Opera Energy's business expansion, execution of projects and plans for future projects and exploring new business opportunities.

VIPUL JAMBUCHA
HEAD – PROJECTS & CRANES

Vipul possesses expertise in Mechanical Engineering and Project Management and is equipped with two decades of vast experience. He holds prestigious certifications and degrees, symbolizing his in-depth knowledge and accomplishment. His innovative and strategic roles at leading companies have contributed to significant developments in the field. Vipul's expertise is a foundational pillar for the company's continuous growth. He is leading the project execution with his immense expertise in planning and executing the project work.

JAYESH SANJAVA
ASSOCIATE DIRECTOR

Jayesh has expertise in renewable energy projects execution and specializes in operations and project management. He brings with him a decade of experience and possesses a master's degree in law which is an additional qualification to supplement his skills. His contributions to the industry are significant, marked by versatility and innovative strategies. Through his roles at major energy firms, Jayesh has acquired a blend of knowledge and skills that are indispensable to the company.

DILIP VASRA
HEAD - CORPORATE FINANCE

Dilip is a financial maestro with extensive expertise in various financial domains, including risk management and securing project funding. His bachelor's degree in commerce underpins his robust understanding of financial systems and controls. Dilip's strategies in mergers & acquisitions and EPC contracting have been pivotal, shaping the financial stability and growth of the company. He plays a vital and key role in securing and managing finances and funding, which is the lifeline and crucial for the company's smooth functioning and achieving targeted growth.

RAJA RAJESWARI
HEAD - LEGAL

Raja Rajeswari is a legal professional with three decades of vast hands-on experience in litigation and corporate law, specializing in legal risk mitigation and regulatory compliance. Her wealth of experience provides invaluable counsel in navigating intricate legal landscapes. Her insights and advice are crucial in maintaining the company's legal integrity and in maneuvering through the complexities of corporate law. She plays a vital and supportive role in negotiation and finalization of contracts, legal documents, litigation management strategy, regulatory and compliances.

SOLAR ENERGY SERVICES

Comprehensive offerings from Site Development to Operation & Maintenance.

STAGE 1

Site Development

- ✓ Site Identification
- ✓ SRA (Solar Resource Study)
- ✓ Energy Yield Prediction
- ✓ Load Flow study
- ✓ Evacuation Permits
- ✓ Land, Soil and Logistic Survey

STAGE 2

Land & Row

- ✓ Acquisition of Land
- ✓ Execution of PPA
- ✓ Acquisition of site Specific NoC Viz. Mining, Geology, Airforce, Marine, etc.

STAGE 3

Infrastructures

- ✓ Soil Testing
- ✓ Plant design
- ✓ Road Construction
- ✓ Infra Development

STAGE 4

Power & Grid

- ✓ Unit switch yards
- ✓ HV & EHV Transmission Lines
- ✓ Substation construction

STAGE 5

PV Module E&C

- ✓ PV Module supply & Erection
- ✓ Supply of other PV components to Site
- ✓ Supply & Erection of Inverters and other Electrical Equipment's
- ✓ Commissioning of Solar Plant.

STAGE 6

Operation & Maintenance

- ✓ O&M for Substation
- ✓ O&M for Solar Plant

WIND ENERGY SERVICES

Comprehensive offerings from Site Development to Operation & Maintenance.

STAGE 1

Site Development

- ✓ Site Identification
- ✓ Supply of Wind Masts
- ✓ WRA (Wind Resource Assessment)
- ✓ Load Flow Study
- ✓ Micro Siting
- ✓ Evacuation Permits
- ✓ Land, Soil and Logistic Survey
- ✓ Acquisition of Site-Specific NOCs Viz. Govt. Mining, Forestry, CRZ, MOD, etc

STAGE 2

Land & Row

- ✓ Acquisition of Land for WTG and Sub station
- ✓ Execution PPA

STAGE 3

Infrastructures

- ✓ Soil Testing
- ✓ Plant design
- ✓ Road Construction
- ✓ Crane pad, hardstand Foundations
- ✓ Unit switch yard
- ✓ SCADA

STAGE 4

WTG E&C

- ✓ Crane Arrangements
- ✓ Supply of WTG Components to WTG Locations
- ✓ Erection of WTG

STAGE 5

Power & Grid

- ✓ Supply & Erection of Electrical Equipment's
- ✓ Construction of substation
- ✓ Transmission Line

STAGE 6

Operation & Maintenance

- ✓ O&M for WTG
- ✓ O&M for Substation
